

Healthy Climate®

Indoor Air Quality Systems

PMAC-12C/20C

Remarkably effective filtration for cleaner, healthier indoor air

Upgrade to maximum efficiency with a MERV 16 filter

Healthy Climate® High-Efficiency Media Air Cleaner

Up to 80% efficient in removing circulated dust and other particles, and bioaerosols as small as 1 micron

High-efficiency (MERV 10) pleated media filter

Works with your central heating and cooling system to enhance the air throughout your home

WARRANTY*

5-year limited warranty on covered components.

*Applies to residential applications only. See actual warranty certificate for details.

THE SOLUTION FOR CLEANER AIR AND A HEALTHIER HOME

If you're concerned about dust accumulating in your home, the Healthy Climate® high-efficiency media air cleaner can help. It improves the air you breathe by trapping even the smallest of particles and bioaerosols—irritants that most standard filtration systems simply can't stop. And the longer it's used, the dirtier it gets, the more efficient it becomes.**

The high-efficiency media air cleaner easily attaches to your existing heating or cooling system. No electrical service is required, and maintenance is simply a matter of changing the disposable filter. To increase air purification, combine the high-efficiency media air cleaner with a Healthy Climate germicidal light.

Healthy Climate® PMAC-12C/20C High-Efficiency Media Air Cleaner

- ◆ High-efficiency MERV 10 collapsible filter
- ◆ Metal door with foam insulation
- ◆ Filter has enhanced UV light resistance, preventing degradation
- ◆ Increased cabinet bonding for prevention of air leaks
- ◆ Cabinet-housed, 6" filter
- ◆ Removes circulated dust and other particles ranging in size down to 1 micron
- ◆ Removes bioaerosols ranging in size down to 1 micron
- ◆ PMAC filters replace Aprilaire/Space-Gard 2400 (401) and 2200 (201) filters respectively

Upgrade to the highest media filtration with a MERV 16 filter

- ◆ Captures 95% of contaminants down to .3 micron
- ◆ Best solution for improving the air in your home
- ◆ Leading innovation in filter performance

**The system's filter will eventually need to be replaced so that it doesn't affect the efficiency of your HVAC system.
